Product Overview

Description: The new AirPods - complete with Wireless Charging Case - combine the intelligent design with breakthrough technology and crystal clear sound. Powered by the new Apple H1 headphone chip, AirPods now feature hands-free access to Siri using just your voice. And up to 3 hours of talk time on a single charge. Features: Automatically on, automatically connected Easy setup for all your Apple devices Quick access to Siri by saying "Hey Siri" Double-tap to play or skip forward The new Apple H1 headphone chip delivers faster wireless connection to your devices AirPods charge quickly in the case The case can be charged either wirelessly using a Qi-compatible charging mat or using the Lightning connector Rich, high-quality audio and voice Seamless switching between devices Listen and talk all day with multiple charges from the Wireless Charging Case Testing conducted by Apple in February 2019 using preproduction AirPods (2nd generation), Charging Case, and Wireless Charging Case units and software paired with iPhone XS Max units and pre-release software The volume was set to 50%. Testing consisted of full AirPods battery discharge with a cellular phone call until the first AirPod stopped playing call audio. Battery life depends on device settings, environment, use, and many other factors Requires an iCloud account and macOS 10.14.4, iOS 12.2, or watchOS 5.2 Battery life varies by use and configuration What's Included: Apple AirPods with Wireless Charging Case (Latest Model) Lightning to USB cable

Technical Specification
